Prostate Cancer

What Is Prostate Cancer?

The prostate is a gland in the male reproductive system that helps produce semen, the thick fluid that carries sperm cells. The walnut-sized gland is located beneath a man's bladder and surrounds the upper part of the urethra, the tube that carries urine from the bladder. Prostate function is regulated by testosterone, a male sex hormone produced mainly in the testicles

A malignant tumor may grow directly through the prostate gland and spread cancer cells to surrounding tissue, Including the rectum and bladder. Cancer cells may also invade the bloodstream, travel to nearby lymph nodes, and then spread to the bones, liver, lungs, and other organs.

Signs and Symptoms

Prostate cancer usually does not cause symptoms in the early stages. When symptoms are present, they may include:

- Difficulty starting the urine stream (hesitancy)
- Inability to urinate.
- Decreased strength of the urine stream.
- Waking at night to urinate (nocturia).
- Frequent urination
- Painful or burning urination (dysuria).
- Feeling that the bladder is not completely empty.
- Blood In urine (hematuria).
- Deep pain in the lower back, abdomen, hip, or pelvis

Prostate cancer often lies dormant for years, causing no symptoms. Most men with prostate cancer die of other causes many without ever realizing that they have the disease. But once prostate cancer 'wakes up' and begins to spread, it is dangerous. Although the disease tends to progress slowly, it is generally fatal if it spreads beyond the prostate gland itself.

Benefit of SGS Therapy:

- Maintains an Ideal Immune system.
- Clears and cleans all lymph nodes thereby & make stronger the lymphatic system functioning.
- Regulates the general metabolism.
- Below combined supplement therapy gives very synergetic effects as an anti-tumours, anti Systs & anti-cancer.
- Make normal cell mitosis functioning & cellular metabolism

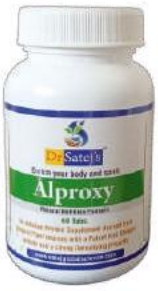

Suggested Products:

Grolyfe : Take 7 drops 3 times under the tongue
Minerjal : Take 10 drops 3 times in 100 ml of Drinking water
OmegaSat : 2 Softgel 3 times after meal
Alproxy : 2 Tablets 3 times after meal
SatvAmrut : 1 Capsule 2 times after meal
Satvika : 1 Tablets 2 times after meal
Comraid : 2 Capsules 3 times after meal
LivoSat : Daily 1 Sachet 1 time
